

# My Top 5 Pearls in Cataract Surgery

## See Well, Understand Better

Yehia Salah Mostafa  
Professor and Chairman  
Ophthalmology department  
Cairo University

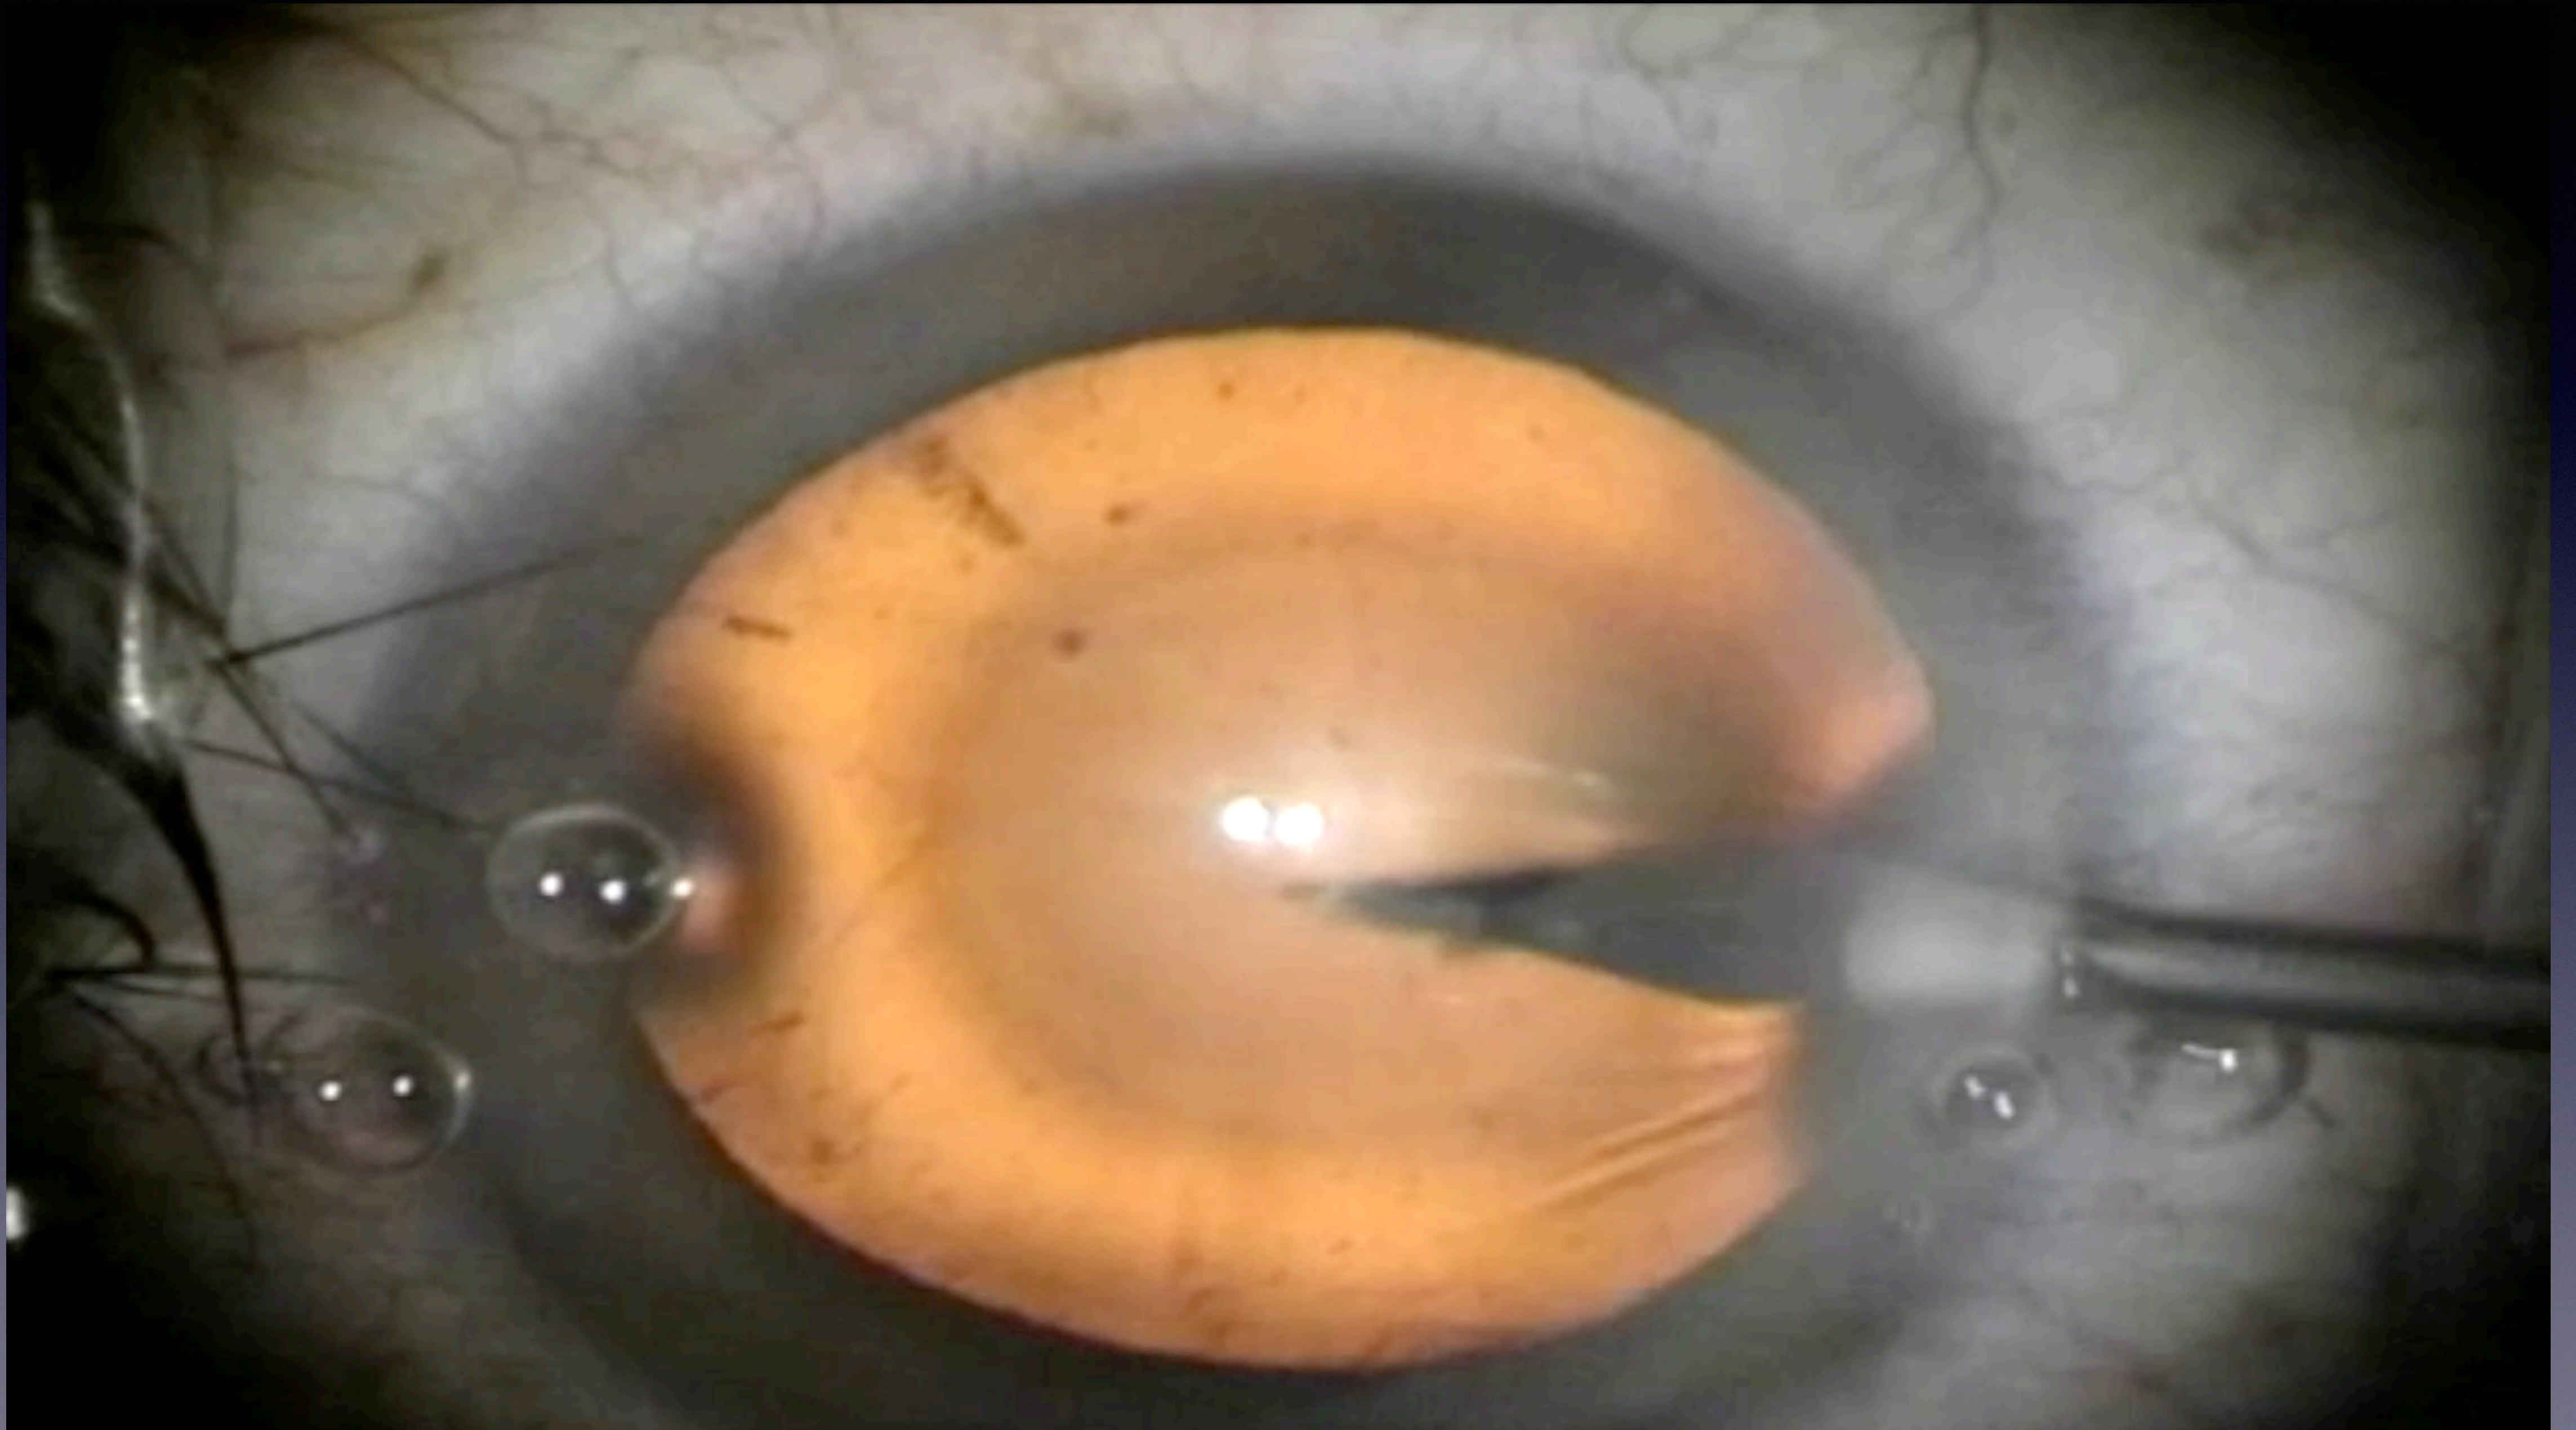

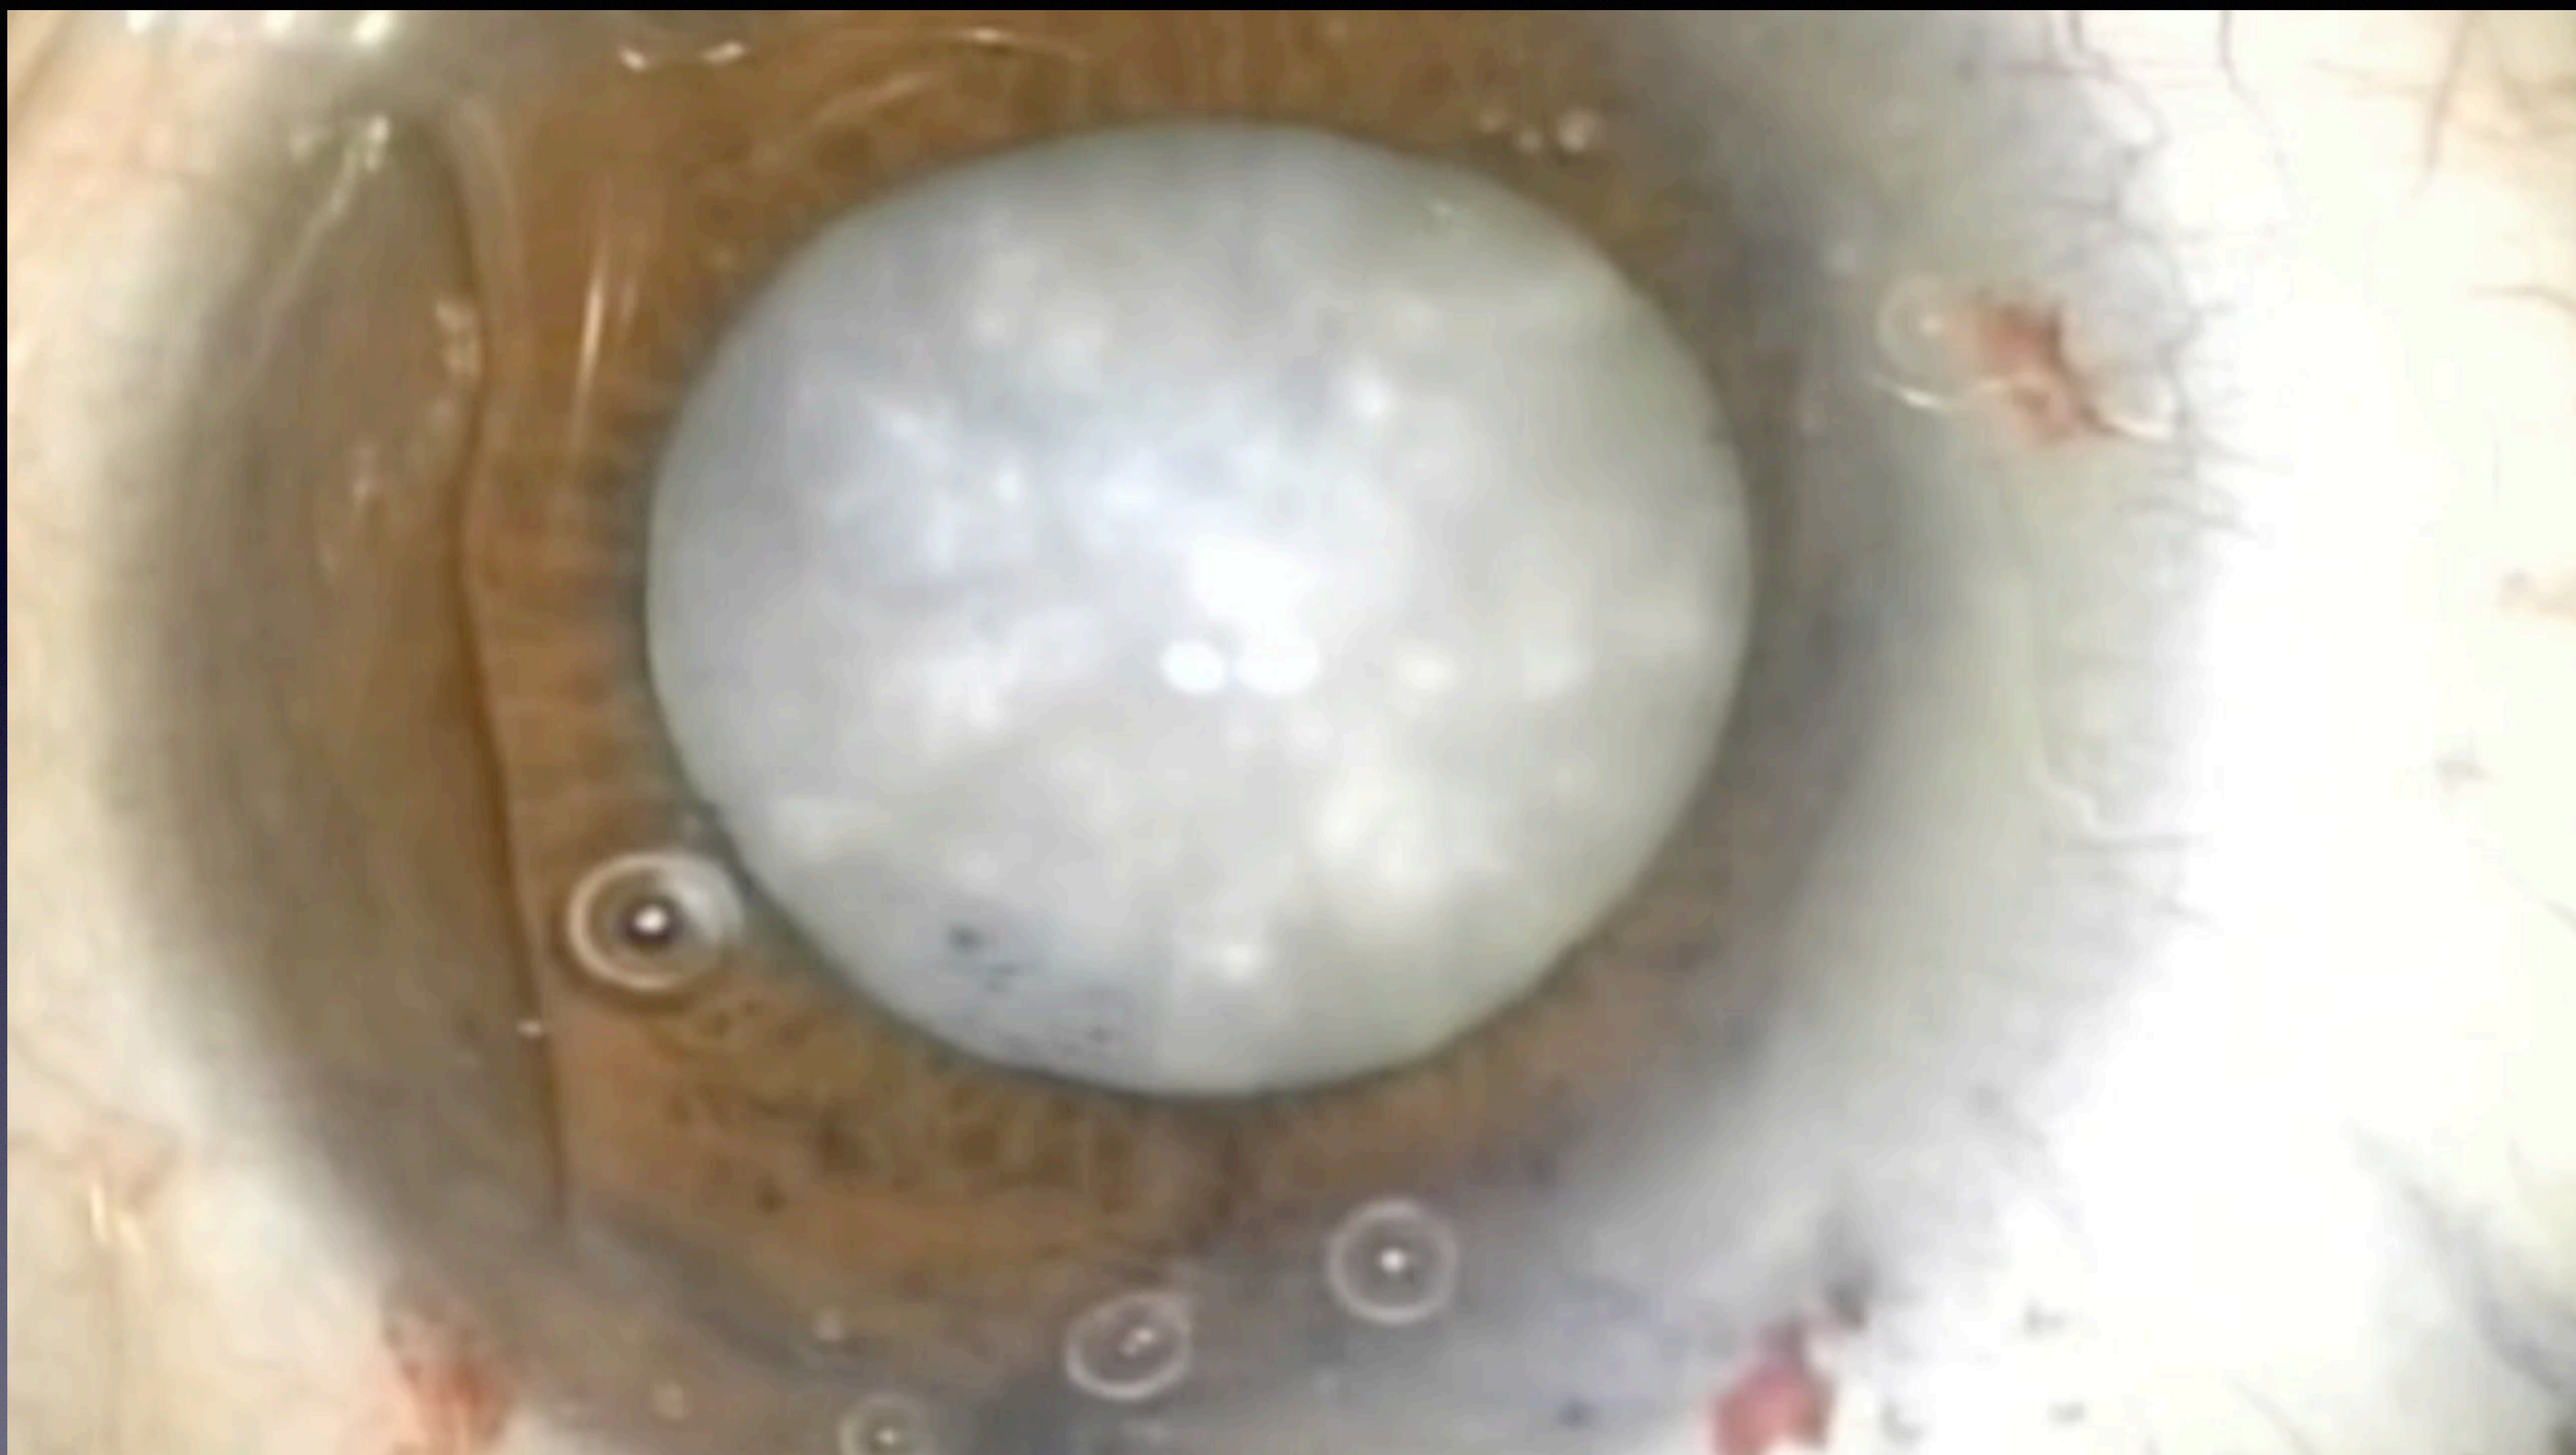

# Magnification

- 1- You see Better.
- 2- You understand How tissues behave in each step of the surgery.
- 3- Shorten and steepens learning curve.
- 4- You can see to avoid complications.
- 5- You can see a complication happening and you can avoid further complications.

Each step on the way
